Platinum is an in-game Warframe currency that can be used to purchase warframes, weapons, equipment, watchmaking, mod packages, and various other items from the in-game market. It can also be used to instantly complete the crafting of wanted items in the foundry. You can also exchange platinum with other players. Here are a few examples of what you can purchase with platinum: Boosters Cosmetic Skins Color Palette Decorations Ready Arms and warframes Weapon Slots Warframe Slots Loadout Slots about Warframe Warframe is a free play of collaborative role-playing games and a third-person shooter multiplayer online game developed and published by Digital Extremes. Originally released for Windows PC, it was later ported to PlayStation 4, Xbox One and Nintendo Switch. In Warframe, players control members of Tenno, a race of ancient warriors who have woken up from centuries of cryo sleep to find themselves at war in a planetary system with different factions. Tenno use their powered Warframes along with powerful weapons and abilities to perform missions. While many of the game's missions use procedurally generated levels, the new updates have included large open peace zones similar to other multiplayer online games, as well as some missions that don't use the procedural generation. The game includes elements of shooting and melee games, parkour, and role-playing games to allow players to advance their Tenno (ancient warrior) character with improved gear.
